Jean,

I have attached a clean version of the Point Reyes FEIS, so this should be ready for your final review and digital signature.

Thanks again for your review,
Jason

Thank you, Jason.
I have a few minor edits, but nothing major, and I appreciate your thoughtful review of this project.

Good morning Jean!

I have attached my letter for the Point Reyes GMP Final EIS. I've mentioned in our team meetings that our comments for the DEIS focused on the diversification activities that the Park Service is proposing for the Ranch Core subzone (the Park Service is proposing to allow the existing ranchers to diversify by potentially raising new livestock and also cultivate row crops, etc.). We had concerns in the DEIS about a lack of analysis of the water use associated with these new activities. We also had concerns that some of these activities could be proposed in low-lying areas susceptible to runoff and flooding, which could lead to runoff and pollutants working their way into sensitive water bodies.

Ex. 5 Deliberative Process (DP)

Thank you for your review, please let me know if you have any questions.

Jason
